Luis Daniel [pendiente]

Full Stack Developer

PROFILE

I build complete web applications, from the data model to the interface: reliable APIs, polished interfaces and deployments that are easy to maintain.

EXPERIENCE

Freelance full stack developer · Dietrim `[pendiente] — today`

- Design and development of websites and web applications for clients, from proposal to deployment. [pendiente]
- Direct client management: requirements, estimates and deliveries.

[pendiente] · [pendiente] `[pendiente] — [pendiente]`

PROJECTS

This portfolio and its 3D robot · Blender, Three.js, GSAP, Next.js
A robot modeled, rigged and animated with Blender scripts, exported to glTF with Draco (0.8 MB) and animated on the web with Three.js and GSAP, in sync with the interface.

EDUCATION

Systems Engineering · [pendiente] In progress
